

Merge Groups & Projects

JIRA ticket

CFORD-302 - Support merging of groups RESOLVED

AMP Reference CFDRMD-73 - Support merging of groups

Background

We have a lot of environments that need to be merged - the need resides mainly in Groups (high) - projects are less of a priority (low).

User stories

User Story		AC	Comments
US-1	As a site administrator , I want to merge groups on capacity4dev , so that I can clean up duplicated environments	<ul style="list-style-type: none">SA is able to click merge from the back-end group overview (/capacity4dev/admin/c4m/groups)action opens a window 'merge contents?' (BN-4)SA can select which group to merge toSA can select which contents to mergeDefault Merged format is defined (BN-3)SA can click SAVE to confirm changesSA can click cancel to annul changes	High priority pre-requisite to first fix delete groups unselected contents are thus permanently deleted
US-2	As a site administrator , I want to merge contents when permanently deleting groups , so that I can transfer and keep important content types	<ul style="list-style-type: none">SA can click 'delete' in the Group edit form<ul style="list-style-type: none">action opens a window 'merge contents?' (BN-4)SA is able to define which contents are mergedMerged format is defined (BN-3)SA is able to see warning message "all other contents will be permanently deleted"SA can click SAVE to confirm changesSA can click cancel to annul changes	Medium Priority pre-requisite to first fix delete groups
US-3	As a site administrator , I want to merge projects on capacity4dev , so that I can clean up duplicated environments	<ul style="list-style-type: none">SA is able to click merge from the back-end project overview (/capacity4dev/admin/c4m/projects)action opens a window 'merge contents?' (BN-4)SA can select which project to merge toSA can select which contents to mergeDefault Merged format is defined (BN-3)SA can click SAVE to confirm changesSA can click cancel to annul changes	low priority pre-requisite to first fix delete groups

US-4	As a site administrator , I want to merge contents when permanently deleting projects , so that I can transfer and keep important content types	<ul style="list-style-type: none"> SA can click 'delete' in the Project edit form <ul style="list-style-type: none"> action opens a window 'merge contents?' (BN-4) SA is able to define which contents are merged Merged format is defined (BN-3) SA is able to see warning message "all other contents will be permanently deleted" SA can click SAVE to confirm changes SA can click cancel to annul changes 	<p>low priority</p> <p>pre-requisite to first fix delete groups</p>

Business needs

Business Need		AC	Comments
BN-1	As capacity4dev , we want to make sure merged groups take into account redirects	When two Groups are merged (A B), all original paths from Group A should direct users to the same content merged into Group B	High priority
BN-2	As capacity4dev , we want to make sure merged projects take into account redirects	When two Projects are merged (A B), all original paths from Project A should direct users to the same content merged into Project B	low priority
BN-3	As capacity4dev , we want to define which items are pushed by default when two groups merge	<p>When two Groups are merged (A B), the following items should be pushed from A to B:</p> <p><u>Contents:</u> (including taxonomies, custom group categories, free tagging, authoring information, comment settings, redirections, views, recommendations, comments, attached documents and revisions)</p> <ul style="list-style-type: none"> Wiki pages - L-1 + all other sub-level wiki pages should be pushed in the Book of Group B at the bottom (Book as entity for Group A is lost) Documents Discussions Photos Photo Albums Events <p><u>Other items:</u></p> <ul style="list-style-type: none"> Active Group members should be pushed with their posting history (posts+comments) and the date they joined Group A - if a user is in both groups, their posting history should be compiled (posts+comments) and the date they joined should remain the one from Group B Custom group categories 	<p>High priority</p> <p><u>What not to include when pushing content:</u></p> <ul style="list-style-type: none"> Members: pending invitations + blocked members Shares (shared to this group from elsewhere) Group description, banner, thumbnail

BN-4	<p>As capacity4dev, we want to add a 'merge contents' interface, so that a SA can manage merging contents</p>	<ul style="list-style-type: none"> • Merge contents interface should be a back end overlay • Allow multiple checkbox selector for the following content types: <p>inside Groups</p> <ul style="list-style-type: none"> • <ol style="list-style-type: none"> 1. Wiki pages - L-1 + all other sub-level wiki pages 2. Documents 3. Discussions 4. Photos 5. Photo Albums 6. Events 7. memberships <p>inside Projects</p> <ol style="list-style-type: none"> 1. Wiki pages - L-1 + all other sub-level wiki pages 2. Documents 3. Discussions 4. Photos 5. Photo Albums 6. Events 7. memberships <ul style="list-style-type: none"> • Add a drop down selector to identify the environment to merge to <ol style="list-style-type: none"> 1. this list should only contain published environments 2. this list should include the privacy group icon (for groups) or project type icon (for projects) • Add SAVE button + Cancel link 	<p>High priority</p> <p>project paragraphs from the source project will be lost when migration occurs to the target project</p>
