

# Cookie Consent Kit

## JIRA Ticket

 **GFORD-624** - As a visitor, I want to manage cookies, so I can benefit from a better browsing experience on capacity4dev CLOSED

 **GFORD-246** - Implement the CCK RESOLVED

AMP Reference: [CFDRMD-50](#) Implement Cookie Consent Kit *Ready for Review*

## Background

To comply with hosting on Europa servers, we are obliged to use Europa's version of the Cookie Consent Kit (CCK). It will add a banner asking visitors/users to accept or refuse cookies on our site. The banner disappears if the user has indicated a choice.

- Available in 24 languages with automatic language detection
- Prevents prior storage of cookies – by disabling widgets that create them – until the user has accepted cookies.
- Disabled widgets will by default display a no-consent message.
- Stores the user's decision in a *.europa.eu* domain cookie so that this information can be passed to the next EUROPA site s/he visits.
- Can be integrated on any HTML web page (JavaScript)
- IPG compliant

We are obliged to use the [CCK from Europa](#) / [Technical details](#) / module: EU Cookie Compliance.

## User stories

User stories		AC	Comments
US-1	As a <b>visitor</b> , I want to <b>accept cookies</b> , so that I can benefit from a <b>better browsing experience</b> on capacity4dev	<ul style="list-style-type: none"><li>• Visitor can accept cookies by clicking the button 'I accept cookies' on the banner</li><li>• By clicking 'I accept cookies', the banner is removed and approval of cookies are stored</li></ul>	
US-2	As a <b>visitor</b> , I want to <b>refuse cookies</b> , so that <b>no trace of my visit is recorded</b> on capacity4dev	<ul style="list-style-type: none"><li>• Visitor can decline cookies by clicking the button 'I refuse cookies' on the banner</li><li>• By clicking 'I refuse cookies', the banner is removed until the next page refresh (cookies not accepted)</li><li>• If cookies have not yet been accepted, the banner should appear on the next page refresh – and so on until accepted</li></ul>	
US-3	As a <b>visitor</b> , I want to find out <b>more about cookies</b> , to better <b>understand</b> what they are	<ul style="list-style-type: none"><li>• Visitor can find out more about cookies by clicking the button 'MORE' on the banner</li><li>• By clicking 'MORE', the visitor is directed to the cookie notice page (cookies not accepted)</li></ul>	

US-4	As a <b>visitor</b> , I want to <b>accept media cookies</b> , so that I can <b>view embedded content</b>	<ul style="list-style-type: none"> <li>• Visitor can click 'accept' to provide consent for cookies related to a particular service</li> <li>• By clicking 'accept', the user is able to view the embedded content (consent removed - no page refresh)</li> <li>• Consent applies to all other embedded content using this service</li> <li>• <del>Visitor can preview an image for the following services: Vimeo, YouTube and Dailymotion</del></li> </ul>	the video preview is available for all services

## Business needs

Business needs		AC	Comments
BN-1	As <b>capacity4dev</b> , we would like to <b>add Europa's CCK</b> , so the platform <b>meets legal requirements</b>	<ul style="list-style-type: none"> <li>• The cookie consent banner should appear for all visitors/users that have not already provided consent</li> <li>• Group ID for dual workflow (first party cookies) should be included in this consent</li> <li>• Default language is English (en)</li> <li>• The language displayed should match the language of the browser</li> <li>• If the language of the browser does not match one of the 24 languages, display default language (en)</li> <li>• CC banner has 3 buttons to accept, refuse, or find out more.</li> <li>• Display banner as footer overlay (it should appear at the bottom of the screen's size and continue to be at the bottom when the user scrolls down).</li> </ul>	
BN-2	As <b>capacity4dev</b> , we would like to <b>add a cookie notice page</b> , so that users are <b>informed about cookies used</b> throughout the site	<ul style="list-style-type: none"> <li>• Implement CCK on cookie notice page</li> </ul>	
BN-3	As <b>capacity4dev</b> , we want to provide the option to <b>accept cookies for embedded services</b> , so visitors can <b>accept specific cookie consents</b> to view embedded contents	<ul style="list-style-type: none"> <li>• Message is displayed on embedded services that require the use of cookies</li> <li>• Default language is English (en)</li> <li>• The language displayed should match the language of the browser</li> <li>• If the language of the browser does not match one of the 24 languages, display default language (en)</li> <li>• Embed services for Vimeo, YouTube and Dailymotion should display a preview image</li> </ul>	
BN-4	As <b>capacity4dev</b> , we want to <b>remove the current cookie notice</b> , so that we can only have the one cookie notice	<ul style="list-style-type: none"> <li>• Current cookie notice is removed</li> <li>• An updated cookie notice is displayed whenever applicable</li> </ul>
