

# Delete Groups & Projects

## JIRA ticket

[CFORD-202](#) - Improve deleting Groups and Projects TESTED

AMP Reference: [CFDRMD-69](#) READY FOR ACCEPTANCE

## Background

When developing the MVP, hard-deleting a group was not fully defined. As a result, when a group is deleted, its contents become floating contents that are normally not allowed. When hard deleting a group, we are certain we want to erase the Group and all its contents - this needs to be specified and applied.

## User stories
