JIRA ticket

 [CFORD-324](#) - Back to top selector RESOLVED

AMP Reference: [CFDRMD-102](#) - Back to top selector *Ready for Review*

Background

Today, we do not have this user friendly feature that would facilitate navigation on the platform. The "**Back to top**" link will be useful tool since our platform is made up of many long pages that makes it difficult navigating back to the top of the page. It would be very beneficial for visitors to have such a tool as it would decrease their frustration from having to scroll up a very long page. "**Back To Top**" is a nice feature that would help in having a button that hovers in the bottom of the screen and would allow visitors of capacity4dev to be able to smoothly scroll up/jump up to the top of the page.

Business needs		AC	Comments
BN-1	As capacity4dev , we want to add a " Back to top " button, so that users can scroll up to the top of any given page on the platform	<ul style="list-style-type: none">• A visitor is able to scroll up to the top of the page by pressing the "Back to top" / "Up" button• The button appears on all pages as soon as a visitor scrolls down any page on the platform• The button should be prevented on mobile or touch devices	Can the scroll to top or the back to top module can be used?

Design

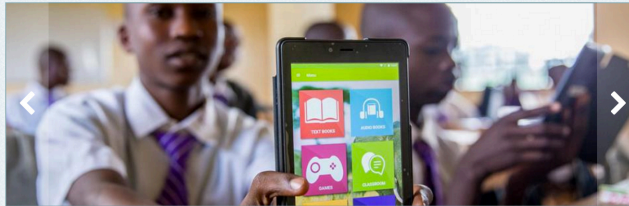

The button would appear as follow:

SHARING, LEARNING & COLLABORATING

Reboot required: Fine-tuning technology for educational development

17 November 2017

The European Commission has been looking closely at how computer-assisted learning can most seamlessly and effectively be integrated into classrooms to foster educational development. Getting that right needs a sound strategy centred on how teachers and students will use it, experts say. | [Read more.](#)
