

# Social media share update

## JIRA ticket

 **CFORD-309** - Social media share update RESOLVED

AMP Reference **CFDRMD-79** - Social media share update READY FOR PLANNING

## Background

The social media icons that are on capacity4dev today come from the module that is provided by DIGIT's services: <https://webgate.ec.europa.eu/fpfis/wikis/display/webtools/Social+bookmarking+and+networking>

We would like to amend the setup of this module so it considers other languages and displays the number of shares for each content.

- Is available in 24 languages with automatic language detection
- Can display the number of times an item has been shared (optional)

## User stories

User stories		AC	Comments
US-1	As a <b>Visitor</b> , I would like to see <b>how many times</b> a content have been <b>shared on social media</b>	<ul style="list-style-type: none"><li>• Visitor can see how many times a content was shared on Facebook, Twitter, Google+, LinkedIn, Yammer, Email</li></ul>	
US-2	As a <b>Visitor</b> , I would like to be able <b>to share the content</b> I am interested in with my network from <b>other social media networks</b> , so that I can update them on interesting topics	<ul style="list-style-type: none"><li>• Visitor can click on '<b>more share options</b>' to share the content on other social media networks such as Pinterest, Blogger, Tumblr, Reddit, etc. from a popup</li></ul>	<p>Is adding extra social media networks not going to hamper on our performance due to the pages being tracked for statistics?</p> <p>Do we really need a popup for the '<b>more share options</b>'?</p>
